

Product Truth (R3)

Two tiers — Pro (\$4,599/mo billed annually, \$55,188/yr) and Custom; ACH/wire only, no Stripe anywhere. The 30-Day Shadow Pilot (approval required) is the only entry path; pilots are invitation-only and server-controlled. Demo Mode is synthetic, no expiry, no entitlement. Documented LIMITS (100000/2500/3000) — no unlimited tiers. Pricing and legal drafts remain pending attorney review. Real-data pilot access is server-verified (auth + TOTP MFA + org membership + active entitlement + server-clock dates); no master credential, key list, or format-only code exists.
